Package Options

Nonprofits face unforeseen accidents that can be financially devastating. Protect them with a package to cover these unforeseen circumstances and the costs associated with defending these claims. Package policies can include property, general liability, professional, abuse and molestation, auto, umbrella and work comp coverage.

Management Liability

Nonprofits can be sued from decisions made by the board, wrongful termination, third-party discrimination and data breach concerns. We can cover these risks with directors & officers, employment practices, crime and fiduciary liability coverages.

Other Coverages Available

Outside of our package options, we have the ability to write many coverages on a monoline basis. Additionally, we can offer accident health, cyber and special events/liquor liability coverage for nonprofits.
